<sup>1</sup> I am presently still under surveillance from a Dutch agent. The last has been advised to be reported in May 1952 instead of in October 1951, because at the present time charged with a case October 1952 Government of India, Foreign Department, Washington D.C. 479 A, dated 10th September 1950, and G. O. No. 30, 1951, is in effect dated 10th September 1950.

<sup>1</sup> For example, the *Journal of Polymer Science*, published by the American Chemical Society, has been cited in the *Journal of Polymer Science* for the purpose of providing a source of information on the polymerization of styrene.

No. 278.—In G.O. No. 20, P.H., dated 10th April 1920, the Government directed that all sub-estimated expenses who are provided with official quarters should be required to pay rent at such rates (not exceeding 10 per cent of their salary) as may be fixed by the officers of the Public Works Department or by the local bodies concerned as the case may be. As orders have been issued by certain local bodies as to the manner in which the rates of rent for the quarters provided by them, the Government are pleased to issue the following general orders on the subject.

1. The annual rent for a building should be fixed with reference to the actual expenditure incurred on it by the local body. When this is not known definitely, the market value of the building (including the site) at the time when the rent is first fixed should be adopted as the capital cost. The said first should not be less than a sum which will cover interest on the capital cost at the prevailing market rate plus the estimated average annual charges for maintenance and repairs. The rate of rent fixed as above should not be liable to subsequent alteration except with reference to any additional cost incurred which will increase the capital cost of the building. The amount of rent to be actually recovered from the occupant of the quarters will be within the annual rent fixed as above or 10 per cent of the per annum value is less.

## NOTIFICATIONS.

Port St. George, October 8, 1935 (G.O. No. 1355, Law (Education)).

No. 316.—It has been brought to the notice of Government that aided elementary schools run by teacher-managers have in several places only an ephemeral existence and that one or two annual visits which the Deputy Inspectors of Schools are able to pay them for purposes of inspection are found inadequate to ensure their continued existence and systematic working. A suggestion has been made to vest the supervision of individual schools in some authority fully conversant with the conditions of the village in which the school is situated and having larger opportunities of deriving first-hand information as to the progress and condition of the school from time to time.

2. The Government have given their careful consideration to the subject and come to the conclusion that village panchayats under Madras Act No. XV of 1929, whenever they are constituted, might be given the power to visit the schools in their jurisdiction and record notes and make suggestions for their improvement in the visitors' book maintained in the institution concerned. In rule 2 under section 42 (2) of the Madras Elementary Education Act, 1930, it is laid down that inspecting officers may recommend under certain conditions either a discontinuance or an increase of the assessed grant admissible to a school. In making such recommendations it shall hereafter be the duty of inspecting officers to consult and take the opinion of the village panchayat exercising jurisdiction over the area in which the school is located. The necessary amendment to rule 2 under section 42 (2) of the Elementary Education Act will be notified separately.

3. The rules for the guidance of village panchayats in the matter of inspection of aided elementary schools are appended to these proceedings.

## APPENDIX.

1. (a) The panchayat shall exercise supervision over the aided elementary schools for boys as well as for girls situated in the local area over which it has jurisdiction through a school committee which shall consist of the president of the panchayat and of not less than two and not more than four other members.

(b) The members of the committee other than the president shall be elected annually by the panchayat and may, under section 21 (3) of the Madras Village Panchayat Act, include persons who are not panchayat members provided that teachers employed in elementary schools in the village shall not be eligible for membership of the committee.

(c) The president of the panchayat shall act as chairman of the committee.

2. The committee shall once a month visit all aided elementary schools in the area over which the panchayat has jurisdiction and record the irregularities in the working of the schools noticed during such visits together with suggestions, if any, for improvement in the visitors' book maintained in the schools.

3. (i) It shall be competent for the committee to record remarks about the following matters:—

(a) nature of accommodation provided for the schools.

(b) discipline and organization.

(c) number of school meetings, opening and closing of schools on working days and the attendance of teachers.

4. (i) Under this head the committee is required to see whether there has been an undue shortening of the school day or the periods allowed devoted to secular instruction.

(d) the presence of pupils expatriated from discipline.

(ii) The committee shall also note:—

(c) whether the strength in the rolls is good in proportion to the population for which the school is intended to provide.

(d) whether the attendance in each class is satisfactory in proportion to the strength of the class.

(e) whether the registers and records are maintained properly and accurately and

(f) whether the school is maintained on regular basis.

4. The members of the committee or as many of them as possible should be present at the school at the time of any office of the Educational Department or of the president or any member of the District Educational Council.

8. The Inspecting officers while making their recommendations for grant shall consider the proposed expenditure and pay particular attention to the receipts recorded by the committee in the visitors' book. The Inspecting officers shall also bring to the special notice of the District Educational Council any cases of flagrant irregularity noticed and recorded by the proposed committee.
